

Balkis Orchard is a blossoming plantation with over 35,000 citrus trees.

We grow 12 varieties of citrus fruits to maintain a year round supply of fresh Balkis juices.

We handpick the finest fruits to give you the best juice, fully loaded with natural nutrients and real flavor.

Balkis contains **NO preservatives, NO additives and NO flavorings**, and should be refrigerated at all times (1°C to 4°C).

Balkis fresh juices contain **NO added sugar**.

Balkis is rich in energy boosting vitamin C and antioxidants. You can enjoy **Balkis** anytime, everyday, and your body will love you for it.

The only thing as refreshing as our juice is how we package it. Our cartons are made from 70% paper using trees from responsibly managed forests. Now that's refreshing!

Q: Why does Balkis flash pasteurize all its juices?

A: We gently flash pasteurize our juices so you can experience great nutrition and good taste without compromising on safety. Once pasteurized, the juice is immediately packed and kept refrigerated. This means you can enjoy a shelf life of 30 days with freshness guaranteed.

Grown & Hand Picked
From our Countryside Orchard
